

Our business is founded on excellence, innovation and integrity. As a Project Consultant you will be working at the front line of delivering our world class consultancy services with these key objectives in mind. Already an incisive thinker and high achiever, you will be expected to deliver Programmes and Projects according to industry recognised methodologies, and to establish long-term collaborative relationships with our Clients that truly realise lasting and positive benefit to their business.

As a driving force behind the delivery of challenging, diverse and national scale projects, you will use your drive, initiative and professional judgement to support your team in exceeding Client expectations. Our projects are leading edge and so you must have a strong desire, and the professional discipline, to embrace, assess, shape and deliver in situations which may involve a significant degree of uncertainty and business risk.

The majority of our projects involve cutting edge technical integration work, and so you must be a tenacious problem solver with the ability and willingness to design and implement enterprise level solutions using the latest technologies, standards and concepts.

If you are looking for a career in a commercially and technically demanding environment, where you and your team can truly make your mark and earn an enviable reputation, then we want to hear from you.
